

# Photography Society

During this academic year, the Society organised photo walk activities like Butterfly Photography (8<sup>th</sup> to 10<sup>th</sup> October 2024) and Bird Photography (16<sup>th</sup> to 17<sup>th</sup> February 2025) that gave a chance to students to learn photography, utilise their camera to the fullest and become sensitised to the world around. The society “focused” on interaction between experts and students in addition to enhancing peer learning in photography and build an environment to capture memories forever.
